

#### WSF webmaster Report:

The website is up to date as of May 18. I will be making officer changes on Thursday, after the Conference to reflect the election and installation of new officers and to archive the election and state conference information.

#### CAB Report:

The M112 has been posted (May 18, 2020) for the Federation and for Chapters. I checked the Vancouver Chapter information and it appeared to be in the correct format. But it will take some time to verify the information. The federation version allows you to look at all chapters in the federation for a set of dates. But not at the same time. Each chapter will have to be run separately and consolidated manually for now.

AMS requests for change: Many requests have been vetted and referred to QH for disposition. The Coronavirus, which put HQ on furlough and/or work-at-home has delayed several the requests from being implemented. The CAB is working to get the changes made to make AMS work for the field officers and members. If you have questions regarding AMS, please feel free to contact me.
